

PRESENTATION :

TITLE : URBAN CONSERVANCIES IN THE ETHEKWENI UNICITY
OF KWAZULU-NATAL.

ABSTRACT

- A. Background and history of conservancies in KwaZulu-Natal.
- B. Urban conservancies in the eThekweni unicity of KwaZulu-Natal.
- C. Objectives of an urban conservancy
 1. To promote the conservation of fauna, flora and natural wetland ecosystems within the conservancy area.
 2. To remove and control invasive alien plants in the conservancy area.
 3. To inform, advise and educate landowners and residents in the conservancy.
 4. To oppose environmentally unfriendly construction and development within the area.
 5. To monitor, report and curb all forms of pollution.
 6. To encourage all forms of waste minimization including recycling, reuse and composting.
 7. To protect and improve the quality of all the natural areas within the conservancy.
 8. To provide inspiration for all residents and visitors to the conservancy area for their commitment to the conservation of the natural environment within the conservancy.
